T7 Plus

integrated terminal with high-performance printer

Delivers Fast Authorizations

The Hypercom®, T7 Plus builds on the heritage of Hypercom's popular T7 family of terminals. This newest model is designed for merchants requiring a compact countertop POS terminal accepting all magnetic stripe cards and delivering fast online transaction authorizations.

"The Clam That Won't Jam"

The revolutionary SureLoad™ printer prints in half the time of previous-generation printers. And it allows paper rolls to simply be dropped in place without feeding through slots and rollers. It also supports longer paper rolls for fewer paper changes and its see-through paper holder alerts cashiers to low conditions before running out of paper in the middle of transactions.

Supports All Card Types

The T7 Plus supports magnetic stripe cards using a Track 1, 2 reader and is EMV4.0-certified. Its 35-key keyboard initiates daily functions and transactions with one simple step and is compatible with previous T7 software, thus reducing certification requirements and training issues.

Specifications:

Keypad

Elastomeric; 35 keys, water-resistant; 3 soft keys (optional); reliable to 500,000 keystrokes (calculated)

Display

LCD: 2 lines x 20 characters (standard), 4 lines x 20 characters (optional); backlight reliable to 50,000 hours (calculated)

Card Reader

Magnetic stripe: Tracks 1, 2 (standard), Tracks 1, 2, 3 (optional); reliable to 400,000 reads (calculated)

Card Reader Options

IC card interface: non-captive; ISO 7816; EMV-compliant; SIMMLOCK: 4 SAMs

Communications

Modem: 56k (optional); 1200, 300 bps (standard); V.22, V.21, synchronous (SDLC) & asynchronous; 2400 bps, V.22 Bis (optional)
PIN pad port: 2-wire or 4-wire; RS-422, RS-232 with power or RS-485 2-wire drop LAN & RS-232 without power
Peripheral port: compatible with S7C, S7SC, S8, P7E

Printer

SureLoad clamshell design, drop-in loading, thermal technology, 384 dots per line, paper roll 57 mm wide x 80 mm diameter

Memory

RAM: 512 KB (standard), 1.0 MB (optional)
RAM backup: 5-year battery
EPROM: 32 KB

Power

AC: 85-250 V, 50/60 Hz, DC: 24 V, 1 A

Security

Physical: intrusion detector
Key management: master/session keys (12) or DUKPT

Environment

Temperature: 0-45°C/32-110°F
Humidity: max 85%, non-condensing
ESD: 12,000 volts

Weight

1.5 lbs/0.68 kg approximate

Footprint

10.0 in x 5.18 in x 2.5 in/25.4 cm x 13.2 cm x 6.35 cm

Product Lifecycle

80,000 hours (calculated), not including printer

Hypercom Corporation (NYSE:HYC) is a leading global provider of electronic payment solutions that add value at the point-of-sale for consumers, merchants and acquirers, and yield increased profitability for its customers. Hypercom products include secure, Web-enabled card payment terminals that work seamlessly with its networking equipment and software applications for e-commerce, m-commerce, smart cards and traditional payment applications. The company's widely-accepted ePOS-infocommerce (epic) framework of consumer-activated, EMV-certified, touch-screen ICE (Interactive Consumer Environment) terminals enable acquirers and merchants to decrease costs, increase revenues and improve customer retention. Headquartered in Phoenix, Arizona, USA, Hypercom is independently acknowledged as the leading provider of point-of-sale card payment terminals worldwide. Demand for Hypercom terminals surpassed one million units last year alone. Hypercom today maintains an installed base of more than 6 million card payment terminals in over 100 countries conducting more than 10 billion transactions annually.
