PRINTER 355

Fast. Quiet. Reliable.

It's everything you want in a receipt printer.

Printing at a rapid 12.5 lines per second, the VeriFone® PRINTER 355 gives you crisp, clean two-part receipts in 5.1 seconds. That's about four times faster than a standard impact printer. It's also quiet and compact—occupying only a few inches of valuable counterspace.

Silent Operation

A reliable, high-quality thermal printer, the PRINTER 355 works silently alongside your VeriFone payment terminal, creating one-, two- or three-part receipts for sales and service. It's easy to use, easy to maintain and lasts for years. All of which make the PRINTER 355 a cost-effective choice.

One Of The Family

As part of the VeriFone family, the PRINTER 355 supports VeriFone TRANZ® and OMNI® systems—including the OMNI 392, OMNI 395 and OMNI 396 desktop terminals and the OMNI 1250 smart card system. You can use it with applications for your PRINTER 250, PRINTPAK™ 300 or PRINTER 900. What's more, the PRINTER 355 uses standard VeriFone cables, so it simplifies inventory control.

No Ribbons, Inks Or Toners

With the PRINTER 355 you get clean, convenient operation. There're no messy inks or toners — which always seem to run out at the worst possible times. No ribbons that expire after a certain number of keystrokes.

The printer gives you a crisp, sharp image—receipt after receipt. Because it uses thermal technology, there's never a problem with faint or uneven printing. Thermal printers also don't generate dust or lint, which can clog rollers.

Additionally, the PRINTER 355 has a stainless-steel tear bar that produces even edges for 100,000 receipts or more. And thanks to an auto-feed feature, paper loading is always easy.

Availability

The PRINTER 355 thermal printer is being released worldwide. Contact your VeriFone sales representative for price and availability.

PRINTER 355

Features

- Creates receipts four times faster than impact printers

- Uses a fixed thermal printhead for long life

- Works with PRINTER 250, PRINTPAK 300 and PRINTER 900 applications

- Produces more than 4 million lines of text

- Provides silent operation

- Supports graphics

- Prints double-width and double-height characters

- Saves space with a compact footprint

- Shares standard VeriFone printer cables

- Offers a choice in power packs — single unit or combo

- Supports character sets for 11 different languages

- Accepts a 40-meter paper roll

Specifications

Physical

Height	2.78 in (70.5 mm)
Width	5.12 in (130 mm)
Depth	6.6 in (167.5 mm)
Shipping Weight	4.28 lb (2.24 kg)
Operating Temperature	0° to 40° C (32° to 104° F)

Printing

Technology	Thermal, fixed printhead
Speed	12.5 lines per second in text mode
Buffer	64 bytes
Copies	Switch selectable 1,2 or 3
